What you need to know

- We're so happy that you're looking for local, sustainable food in Alberta and that you found us! At Meadow Creek Farms, our Protein Program includes Chickens, Turkeys and Pork raised outside with natural feed.
- The birds at Meadow Creek Farms receive feed containing peas, flax, barley and a small amount of wheat. The feed is soya, canola and corn-free.
- On our farm, the chickens and turkeys can indulge their natural instincts to scratch the dirt, bathe in the sun, and get lots of exercise. The texture and flavour of their meat is different than barn or cage-raised birds who are fed a high-protein diet containing additives.
- You will receive your protein selections frozen for your convenience. Please plan to have a cooler and ice to transport it home.
- Mandy is very flexible on delivery dates so just give her a call. For additional products please order at www.meadowcreekfarms.ca.
